Notes from Our Director

A good Model A dog is hard to find. I guess dogs are getting more like people nowadays. They expect a quiet air conditioned ride with music, and 24 air bags for safety. We have three dogs at our house and only one of them is a good Model A dog. Pongo loves to ride in the Model A. He proudly holds his head high.

He's happy just to sit in the Model A, and getting to go for a ride is a real treat. The other two just plain don't like it, don't know why, they just don't want anything to do with it. Pongo is a rescue dachshund; he's been bounced around some, probably abused, and had it pretty rough for a while. He has a lot in common with our Model A. I guess he bonded with the old car. If you have a good Model A dog chances are you have a good dog period. Hang on to it.

-Bob

The Model A Ford Youth Scholarship Fund (MAFYS) was established as a 501 (c)(3) tax exempt organization to assist children and/or grandchildren of any

MAFCA/MARC member in pursuing their undergraduate education. Funds come from donations by clubs, regions and individuals, and scholarships are awarded for up to four years. The Board of Southside A's recently voted to contribute \$200 to this worthy organization.

MAFCA & MARC Tours...and then some

Reflections by Betty Miller

Photos courtesy of Teri Besch and fellow travelers

By now some of you have read the last of the blog (beschmillerwingo.blogspot.com). These are just a few thoughts on the trip as a whole. The last day of our trip we stopped for lunch and I asked everyone a few questions to get a feel for what made the biggest impressions to each of us on the trip. Following are the responses:

FAVORITE STATE: Vermont & Maine

FAVORITE EVENT: Lobster Bake in Maine, Welcome party entertainment "Next Generation Leahy" an Irish family band that sang & danced, Saratoga Battlefield, Yuengling tour.

SURPRISE MOMENT: Meeting Kris MacCabe from the TV show "Northwoods Law"

WORST ROADS: all of Pennsylvania and one area of I-24 near Chattanooga

PRETTIEST STETCH OF ROAD - Coast of Maine on U.S. 1 and U.S. 20 across New York

GLAD WE DIDN'T MISS - Hopewell Rocks (Bay of Fundy), Lobster ("lobstah")

BIGGEST DISAPPOINTMENT- Not going to NovaScotia, Carnival atmosphere of Niagara Falls

BEST MEAL - Pick and cook your own lobster, Massimo Capra's Rainbow Room Restaurant at the Crowne Plaza Niagara Fallsview for our anniversary

SILLIEST MOMENT- Trying to get into the parking lot at the Niagara hotel (we think they must be trying to keep it a secret), trip to Hell, Michigan

BIGGEST CAR TROUBLE - 2 fan belts on Jim's car had to be replaced (quick fix)

There are just too many memorable moments to put in one article. If interested you can look at the blog and see what everyone missed. Teri did a great job of doing the blog every day! You should have been there - we wish you all could have been. It is just so much fun to drive these cars on the backroads of America, so much to see and so little time.

MODEL A DAYS AT THE MODEL A MUSEUM, HICKORY CORNERS, MI

September 19, 2015: The 3rd annual Model A Day at the Model A Ford Museum. The Model A Museum is located on the campus of the huge Gilmore Car Museum. Activities during Model A Day include seminars, Hall of Fame inductions, swap meet, special Model A displays and lots of museum viewing.

Co-located on the site is the Lincoln Museum, Cadillac Museum, Pierce Arrow Museum, Franklin Museum and the Classic Car Club of America's Museum. These are in addition to the many automotive displays of the Gilmore Museum.

September 19th is also International Model "A" Ford Day! This is a day set aside to take your "A" out for a good drive, and to share these wonderful cars with others, as well as with friends.

Many of us will be doing just that on the Dick & Jane Tour to Washington, GA. However, for those who are unable to make the extended tour, be sure to watch for forthcoming information about a one-day, close-to-home alternative.

Or, better still, why not consider planning something yourself? It can be as simple as planning to meet at a restaurant for lunch, by way of a country-road Model A drive. Join the worldwide Model A community in celebrating our hobby on September 19th!

IMPORTANT NOTICE: Effective immediately, annual dues for MARC have increased for 2016. Here are the new rates:

USA Dues for 2016	\$45.00

Overdrive Upgrade

by Bentley Bohanan

If you drive your Model A on the open road a lot, such as Touring, you may have noticed the need for a higher gear above 45 mph. For many years now, guys have upgraded their cars by installing an overdrive. There are several options to choose from. I will try to go over the most popular options, then you can decide for yourself what is the best route for you. Remember that we are always eager to help with any project you take on for your Model A.

1: High Speed Rear End Gear. Most Model A's, came with a standard ratio gear, which is 3.78:1 (34:9). This is a perfect all around gear ratio for standard driving. However, if you find your car tends to rev the engine during highway driving, and you have a fairly light weight car such as a Pick-up or Coupe, you may want to opt for a high-speed gear such as a 3.54:1 (39:11). Installing a new ring and pinion gear will require removing and disassembling the rear end. Always be careful to set the gears up properly, inspect and replace any worn bearings and parts, and especially the Seals.

2: There are several kits available which allow you to install a later model transmission in your Model A. These transmissions are either from a Ford pick-up or Chevrolet S-10, from the '80s or '90s. We have installed both types of kits. These kits are not for the faint of heart, requiring cutting and welding of the frame, and extensive modifications to the drive train and brakes. However, if you don't mind the modifications, they are nice transmissions when done, providing both synchronized shifting and overdrive.

3: Another option, perhaps from days gone by, is the Borg-Warner Overdrive. These were installed back in the '50s and '60s, when junkyard were full of cars with these units. They were installed by many OEM car companies. You see a lot of older restorations with these units installed. From time to time you may find one of these overdrives at a swap meet. You would be on your own to find replacement parts and installation guidelines. **Good luck.**

4: The easiest, and perhaps the most popular upgrade is the Mitchell Overdrive. These are available brand-new today. The entire unit takes place of your stock driveshaft and driveshaft tube. It is a true bolt-in affair, which can be done in a weekend. There are no modifications required to your brake system or chassis. The unit is synchronized, so you can shift it in and out of overdrive while driving. This allows you to use it as a "Gear-Splitter", affectively giving you a six speed transmission. Keep your original driveshaft, and driveshaft tube, so you can keep your Mitchell, if you ever decide to sell your Model A.

There is a several week backorder on the Mitchell Overdrives, , so if you decide you want one for your Model A, call me today and we will get one ordered for you. Remember if we can help with any project on your Model A, please give me a call anytime at 678-407-1947.

Enjoy the Drive...

FASHION FINDS... *By Gwyneth Shotwell*

Women's fashions reflect time and place, one's tastes, one's means...many different things. In highlighting fashion from the Model A Era, the times are beautifully illustrated. This month I'm sharing a lovely poem illustrating our era that was shared at a MARC National Meet Fashion Seminar. I found it very touching, and think that you will too.

The Clothesline Said So Much

A clothesline was a news forecast
To neighbors passing by.
There were no secrets you could keep
When clothes were hung to dry.

It also was a friendly link
For neighbors always knew
If company had stopped on by
To spend a night or two.

For then you'd see the fancy sheets
And towels on the line;
You'd see the company table clothes
With intricate design.

The line announced a baby's birth
To folks who lived inside
As brand new infant clothes were hung
So carefully with pride.

The ages of the children could
So readily be known
By watching how the sizes changed
You'd know how much they'd grown.

It also told when illness struck,
As extra sheets were hung;
Then nightclothes, and a bathrobe, too,
Haphazardly were strung.

It said, "Gone on vacation now"
When lines hung limp and bare.
It told, "We're back!" when full lines sagged
With not an inch to spare.

New folks in town were scorned upon
If wash was dingy gray,
As neighbors raised their brows,
And looked disgustedly away.

But clotheslines now are of the past
For dryers make work less.
Now what goes on inside a home
Is anybody's guess.

I really miss that way of life.
It was a friendly sign
When neighbors knew each other best
By what hung on the line!
